

/Users/archanar/Kinematic  
\_factor/adat\_devel\_install  
/include/Minuit2/MnVectorTransform.h

```
graph BT; A["/Users/archanar/Kinematic_factor/adat_devel_install/include/Minuit2/MnVectorTransform.h"] <--> B["/Users/archanar/Kinematic_factor/adat_devel_other_libs/minuit/src/MnFcn.cxx"]; A <--> C["/Users/archanar/Kinematic_factor/adat_devel_other_libs/minuit/src/ParametricFunction.cxx"];
```

The diagram illustrates a dependency relationship. At the top, a grey-shaded box contains the path to a header file: /Users/archanar/Kinematic\_factor/adat\_devel\_install/include/Minuit2/MnVectorTransform.h. Below this box are two white boxes. The left box contains the path to a source file: /Users/archanar/Kinematic\_factor/adat\_devel\_other\_libs/minuit/src/MnFcn.cxx. The right box contains the path to another source file: /Users/archanar/Kinematic\_factor/adat\_devel\_other\_libs/minuit/src/ParametricFunction.cxx. Two blue arrows point from the bottom of each of these two source file boxes up to the header file box, indicating that both source files include or depend on the header file.
