

/Users/archanar/Kinematic
_factor/adat_devel_install
/include/AllConfStoreMultipleDB.h

```
graph BT; A["/Users/archanar/Kinematic_factor/adat_devel/main/dbutil/dbavgsrc.cc"] --> B["/Users/archanar/Kinematic_factor/adat_devel_install/include/AllConfStoreMultipleDB.h"]; C["/Users/archanar/Kinematic_factor/adat_devel/main/dbutil/dbavgsrc.cc"] --> B;
```

The diagram illustrates a dependency relationship. At the top, a grey-shaded box contains the path to a header file: /Users/archanar/Kinematic_factor/adat_devel_install/include/AllConfStoreMultipleDB.h. Below this box are two white boxes, each containing the path to a source file: /Users/archanar/Kinematic_factor/adat_devel/main/dbutil/dbavgsrc.cc. Two blue arrows point from the source file boxes up to the header file box, indicating that the source files depend on the header file.

/Users/archanar/Kinematic
_factor/adat_devel/main
/dbutil/dbavgsrc.cc
