ADATIO::OldSerialDBKey::key

```
graph LR; A[ADATIO::OldSerialDBKey::writeObject] --> C[ADATIO::OldSerialDBKey::key]; B[ADATIO::OldSerialDBKey::readObject] --> C;
```

The diagram illustrates a shared variable 'key' within the 'ADATIO::OldSerialDBKey' namespace. Two methods, 'writeObject' and 'readObject', are shown on the left, each with a blue arrow pointing to the 'key' variable on the right. The 'key' variable is highlighted in a gray box, while the method boxes are white with black borders.
