

Hadron::operator-

Hadron::operator<<

ADAT::MapObject::keysAnd  
Values

```
graph LR; A[Hadron::operator-] --> C[ADAT::MapObject::keysAnd Values]; B[Hadron::operator<<] --> C;
```

The diagram illustrates a mapping from two Hadron operators to a single ADAT function. On the left, two white rectangular boxes are stacked vertically. The top box contains the text 'Hadron::operator-' and the bottom box contains 'Hadron::operator<<'. On the right, a larger grey rectangular box contains the text 'ADAT::MapObject::keysAnd Values' on two lines. Two blue arrows originate from the right side of the top white box and the right side of the bottom white box, both pointing towards the left side of the grey box.
