

Hadron::CGC::inducedRepChar

Hadron::CGC::inducedRepMat

Hadron::CGC::daggerOh

```
graph LR; A[Hadron::CGC::inducedRepChar] --> C[Hadron::CGC::daggerOh]; B[Hadron::CGC::inducedRepMat] --> C;
```

The diagram illustrates a relationship where two separate components, 'Hadron::CGC::inducedRepChar' and 'Hadron::CGC::inducedRepMat', both point to a single target component, 'Hadron::CGC::daggerOh'. The arrows indicate a directed association or flow from the left-hand boxes to the right-hand box.
