

/Users/archanar/Kinematic
_factor/adat_devel_install
/include/xml_schemawriter.h

```
graph BT; A["/Users/archanar/Kinematic_factor/adat_devel_install/include/xml_schemawriter.h"] --> B["/Users/archanar/Kinematic_factor/adat-devel/other_libs/xpath_reader/examples/schema_writer_test.cc"]; A --> C["/Users/archanar/Kinematic_factor/adat_devel/other_libs/xpath_reader/examples/schema_writer_test.cc"];
```

The diagram illustrates a file dependency structure. At the top is a grey box containing the path to a header file: /Users/archanar/Kinematic_factor/adat_devel_install/include/xml_schemawriter.h. Below this box are two white boxes, each containing the path to a source file: /Users/archanar/Kinematic_factor/adat-devel/other_libs/xpath_reader/examples/schema_writer_test.cc. Two blue arrows point from the source files up to the header file, indicating that both source files include the header file.
