

ENSEM::OMatrix::assign

```
graph LR; A[ENSEM::OMatrix::assign] --> B[ENSEM::OMatrix::checkSize]; B --> C[ENSEM::OMatrix::size];
```

The diagram illustrates a sequence of three operations. The first operation, 'ENSEM::OMatrix::assign', is shown in a white box. A blue arrow points from this box to the second operation, 'ENSEM::OMatrix::checkSize', which is also in a white box. Another blue arrow points from the second box to the third operation, 'ENSEM::OMatrix::size', which is shown in a gray box. This visual representation suggests a dependency or a call sequence where 'assign' leads to 'checkSize', which in turn leads to 'size'.
