

/Users/archanar/Kinematic
_factor/adat_devel_install
/include/Minuit2/MnTiny.h

```
graph BT; A["/Users/archanar/Kinematic_factor/adat_devel/other_libs/minuit/src/MnMachinePrecision.cxx"] --> C["/Users/archanar/Kinematic_factor/adat_devel_install/include/Minuit2/MnTiny.h"]; B["/Users/archanar/Kinematic_factor/adat_devel/other_libs/minuit/src/MnTiny.cxx"] --> C;
```

The diagram illustrates a dependency relationship. Two source files at the bottom point to a header file at the top. The top box, which has a gray background, contains the path to the header file: /Users/archanar/Kinematic_factor/adat_devel_install/include/Minuit2/MnTiny.h. The bottom-left box contains the path to MnMachinePrecision.cxx, and the bottom-right box contains the path to MnTiny.cxx. Both source files are located under the path /Users/archanar/Kinematic_factor/adat_devel/other_libs/minuit/src. Blue arrows indicate the direction of the dependency from the source files to the header file.

/Users/archanar/Kinematic
_factor/adat_devel/other
_libs/minuit/src/MnMachinePrecision.cxx
