

```
std::iterator< std  
::input_iterator_tag,  
std::unordered_map<  
std::string, std::pair  
< K, V > >  
>
```

```
ADAT::MapObjectIterator  
< K, V >
```

The diagram consists of two rectangular boxes. The box on the left is white with a thin black border and contains C++ code for a standard iterator. The box on the right is gray with a thin black border and contains the name of a custom iterator. Two blue arrows point from the right box to the left box, indicating that the custom iterator inherits from or specializes the standard iterator.
