The diagram illustrates a directory structure where two source files, `sub_spin_hel_map.cc`, are located in different subdirectories (`adat-devel/lib` and `adat_devel/lib`) but both include the same header file `sub_spin_hel_map.h` located in the `install/include/hadron` directory. The header file's path is shown in a grey box at the top, while the source files' paths are in white boxes at the bottom. Blue arrows point from each source file box to the header file box.
