

PolVec::getPolz4

```
graph LR; A[PolVec::getPolz4] --> B[sqrt]
```

A diagram showing a call from the function `PolVec::getPolz4` to the function `sqrt`. The `PolVec::getPolz4` box is shaded gray, and the `sqrt` box is white. A blue arrow points from the right side of the `PolVec::getPolz4` box to the left side of the `sqrt` box.
