

ADATXML::operator<<

ADATXML::XMLWriter  
::write

```
graph LR; A[ADATXML::operator<<] --> B[ADATXML::XMLWriter::write]
```

A diagram illustrating a function call. On the left, a gray rectangular box contains the text "ADATXML::operator<<". A blue arrow points from the right side of this box to the right side of a white rectangular box on the right. The white box contains the text "ADATXML::XMLWriter" on the top line and "::write" on the bottom line.
