

Hadron::momIrrepName

Hadron::opListToIrrepMom

Hadron::removeIrrepLG

```
graph LR; A[Hadron::momIrrepName] --> C[Hadron::removeIrrepLG]; B[Hadron::opListToIrrepMom] --> C;
```

The diagram illustrates a flow or dependency where two separate entities, 'Hadron::momIrrepName' and 'Hadron::opListToIrrepMom', both point to a single target entity, 'Hadron::removeIrrepLG'. The arrows are blue and point from the right side of the left boxes to the left side of the right box.
