

ADATIO::OldSerialDBData
::writeObject

ADATIO::OldSerialDBData
::readObject

ADATIO::OldSerialDBData
::data

```
graph LR; A[ADATIO::OldSerialDBData::writeObject] --> C[ADATIO::OldSerialDBData::data]; B[ADATIO::OldSerialDBData::readObject] --> C;
```

The diagram illustrates a relationship between two methods and a data member. On the left, there are two white rectangular boxes. The top box contains the text 'ADATIO::OldSerialDBData::writeObject' and the bottom box contains 'ADATIO::OldSerialDBData::readObject'. On the right, there is a gray rectangular box containing the text 'ADATIO::OldSerialDBData::data'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both methods interact with or access the 'data' member.
