

/Users/archanar/Kinematic
_factor/adat_devel_install
/include/ConfDataStoreMultipleDB.h

```
graph BT; A["/Users/archanar/Kinematic_factor/adat_devel/main/dbutil/dbprop_diag_t0.cc"] --> C["/Users/archanar/Kinematic_factor/adat_devel_install/include/ConfDataStoreMultipleDB.h"]; B["/Users/archanar/Kinematic_factor/adat_devel/main/dbutil/dbprop_diag_t0.cc"] --> C;
```

The diagram illustrates a dependency relationship. At the top, a grey-shaded box contains the path to a header file: /Users/archanar/Kinematic_factor/adat_devel_install/include/ConfDataStoreMultipleDB.h. Below this box are two white boxes, each containing the path to a source file: /Users/archanar/Kinematic_factor/adat_devel/main/dbutil/dbprop_diag_t0.cc. Two blue arrows point from the source file boxes up to the header file box, indicating that the source files depend on the header file.
